

CarerEze Chair

Designed for Caregivers, Built for Comfort

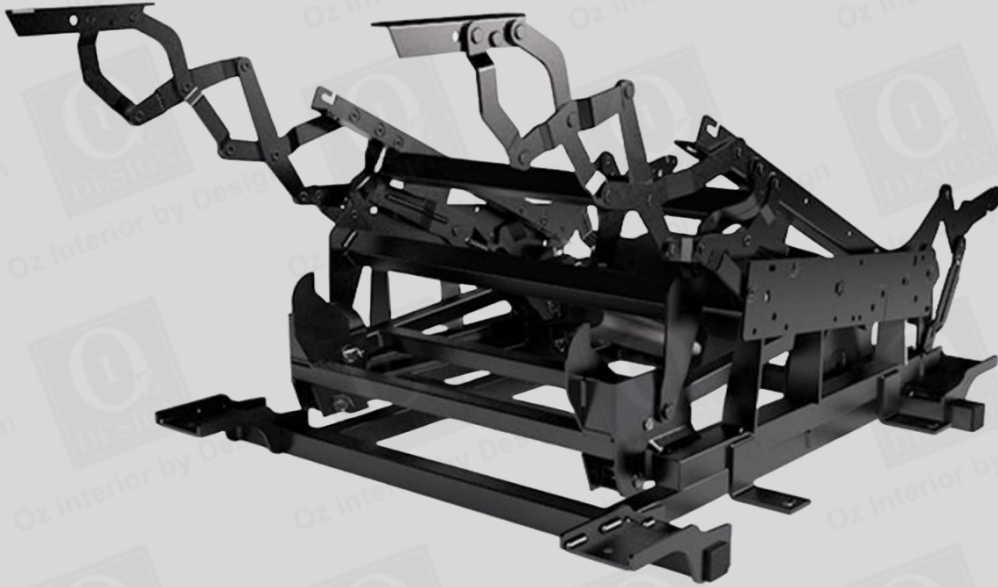

At Oz Interior by Design, we understand that providing comfort isn't just about the patient—it's about making life easier for caregivers too. The **CarerEze Chair** based on the CuraRest and the FlexiMove platform. However, control and functionality is assigned to the carer. Thoughtfully crafted to assist carers in managing the comfort and well-being of their patients, particularly those who cannot make adjustments on their own.

Dimension:

- Load capacity - 180kg**
- Total width - 950mm**
- Total height - 1330mm**
- Seat width - 610mm**
- Seat depth - 530mm**
- Backrest height - 920mm**
- Seat to floor height - 470mm.**

Built for Ease and Support:

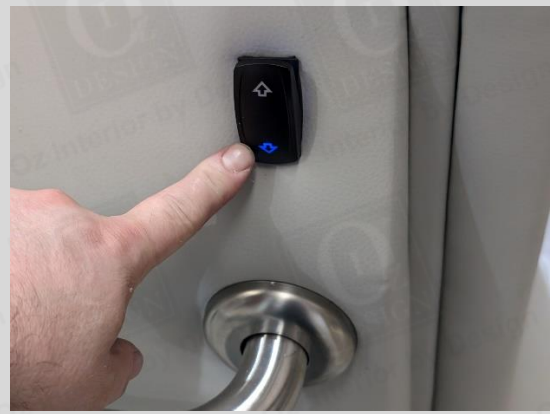

The **CarerEze** is designed using the same high-quality **Seminar mechanism** and **birch plywood construction** found in our other models, ensuring both durability and comfort. It stands out with features that make caregiving easier and more efficient.

Features and Benefits:

- **Lockable Wheels for Easy Manoeuvring:** The **CarerEze** is equipped with **lockable wheels**, allowing for smooth movement when needed and secure positioning when stability is essential.
- **Robust Handle for Caregiver Control:** A strong handle is located on the back of the chair, making it easy for caregivers to steer and reposition the chair as needed, even in tight spaces.

- **Back-of-Chair Recline and Retract Controls:** The **CarerEze** features control buttons on the back of the chair, allowing caregivers to **recline** or **retract** the chair easily. This feature is ideal for patients who are unable to adjust the chair themselves, giving caregivers full control over the patient's comfort.

- **Footrest support: CarerEze chair**, has a retractable footrest to support patients' feet during movement, is an excellent enhancement. This addition will improve comfort and safety while making it easier for caregivers to move the chair with the patient seated.

Why Choose the CarerEze Chair?

- **Designed for Caregivers:** With its **lockable wheels**, **back controls**, and **robust handle**, the **CarerEze** makes it easier for caregivers to manage patient comfort without added strain.
- **Effortless Movement and Comfort:** Like all our chairs, the **CarerEze** offers **superior comfort** through its **Seminar mechanism** and durable **birch plywood construction**, ensuring patients feel supported and comfortable throughout their care.
- **Practical and Safe:** The chair's **lockable wheels** provide stability when stationary and allow easy movement when needed, making it a practical solution for any care environment.

The **CarerEze Chair**—crafted with caregivers in mind, ensuring patients receive the comfort they deserve while making caregiving simpler and more efficient. From **Oz Interior by Design**, where patient care and comfort are at the forefront of every design.
